

Newcraighall Bridge Demolition

Briefing No. 1
31 October 2014

The Project

As part of the Barratt Development, north of Newcraighall Road the disused railway bridge that crosses the A6095 is to be demolished. To accomplish these works Newcraighall Road (A6095) will be closed for 7 days.

Impact

This closure will start on Monday 17th November and run until Sunday 23rd November 2014.

This closure will cause inconvenience and disruption to the travelling public. To help reduce disruption, a pedestrian footway has been constructed within the Barratt development site, this footway will be tarred, fenced and lit. This will provide 24hour, 7 days a week access for pedestrian and cycle traffic.

All vehicular traffic, including public transport, will be diverted via the A1. Public Transport will divert through Queen Margaret University and pick up the route at the roundabout at Whitehill Farm Road. There will be a free shuttle bus running between this point and Newcraighall East. (times to be confirmed).

Diversions (see above)

Bus Diversion route marked in red; Car diversion route marked in green; Pedestrian Route marked in yellow; Shuttle bus route marked in blue.

NEWSLETTER NOVEMBER 2014

Newcraighall Railway Bridge Removal

Central Demolition Ltd are delighted to have been awarded the contract for the removal of Newcraighall Railway Bridge. Please find below some information on the project.

We plan to commence works at the site on Tuesday 11th November 2014, with a current anticipated end date of Sunday 23rd November 2014.

When works commence, we will be preparing for the removal of the disused bridge by clearing vegetation etc. During this time, Newcraighall Road should remain operational. Unfortunately, the next phase of our works - the removal of the bridge - requires a 7 day road closure. **Newcraighall Road (A6095) will be closed from Monday 17th November 2014 until Sunday 23rd November 2014 inclusive. The road will re-open on Monday 24th November 2014.** We understand that this will inevitably cause disruption, but the closure is necessary in the interest of public safety.

Our team will be doing all that they can to minimise the impact of our works on local residents. During the works there may unfortunately be some dust and noise, as well as traffic disruption, and we apologise in advance for any inconvenience which this may cause. We will endeavour to keep disruption to a minimum.

If you do have any queries or issues then please do not hesitate to contact us by telephone on 01324 815 700 or by e-mail to enquiries@centraldemolition.co.uk.

Please note that upon completion of our works there will be temporary traffic lights installed in this location for a further week to allow the groundwork sub-contractor to carry out the next phase of works in the area.

May we please ask for you to circulate this information to aid us in informing as many of those who will be affected as possible in advance of our commencement on site.

Thank you in advance for your cooperation.
